

Bio

The Together Collective is an 8-piece band based in the Greater Seattle area of the beautiful Pacific Northwest. Described as 'Soulful Groove-Rock' - they deliver a high energy show built on years of individual musical experience culminating in the given moment. Genuine and raw, from pocket to exploratory, it's music to be shared TOGETHER.

The members of The Together Collective are obviously having just as much fun rocking on stage as their audience is having dancing to the music

The Together Collective carry their own weight during a performance, and it translates into a dynamic show with a highly personal appeal for the wayfaring stranger

Josephine Jager - What's Up Magazine
